HOOVER IN SPECIAL MESSAGE TO CONGRESS

ENFORCEMENT OF PROHIBITION IS CONSIDERED

RECOMMENDS THAT FEDERAL
BUREAUS BE ORGANIZED
TO CARRY ON WORK

ASKS JOINT COMMITTEE OF CON-
GRESS BE APPOINTED TO
STUDY PROBLEM

By RAYMOND CLAPPER

Washington, June 6.—(U.P.)—Reorganization of federal bureaus concerned with prohibition enforcement was recommended by President Hoover in a special message to congress today.

The president recommended that a joint committee of congress be appointed at once to study this problem and make a report for consideration at the regular session beginning next December.

The president's program as outlined in his message today contemplates the "concentration of responsibility" in prohibition administration. It also involves the consolidation of the various agencies as well as "the necessity for the unification and strengthening of our border patrols."

The president sent his message to the special session of congress "in order to secure the utmost expedition" in the accomplishment of the new program.

Speaker Longworth had the president's message read to the house by a clerk. He then ordered it referred to the rules committee for consideration.

The president's message was as follows:

"To the Congress of the United States:

"In order to secure the utmost expedition in the reorganization and concentration of responsibility in administration of the federal bureaus connected with prohibition enforcement, so greatly needed to improve their effectiveness, I recommend that the congress appoint a joint select committee to make an immediate study of these matters and to formulate recommendations for consideration at the next regular session.

"I shall be glad to appoint a committee from the departments to co-operate with such a committee of the congress. The national commission on law observance and enforcement will also co-operate through their studies of the departmental organization.

"The subject involves the transfer of parts of various bureaus and agencies from certain departments to others and it includes as well the necessity for the unification and strengthening of our border patrols, both in connection with prohibition and illegal entry of aliens. As the question embraces numerous laws and regulations in several bureaus, it will require extensive consideration which, if given jointly by such committees of the congress and the departments prior to the regular session, will save many months of delay."

The president's message to congress was despatched while the new law enforcement commission was holding its first real working session.

About the same time Sen. Hawes, democrat, Mo., announced he would introduce a resolution in the senate calling upon the commission to hold its meetings openly.

Although the president made no specific suggestion as to how the reorganization should be accomplished, it was generally understood in official circles that his message constitutes the first step in the administration program for transferring all enforcement activities from the treasury to the department of justice.

At the same time, President Hoover indicated he would appoint a joint committee from the various executive departments interested to co-operate with the congressional committee and the newly created law enforcement commission in preparing legislation for the next session of congress, which assembles in December.

Transmission of this recommendation to congress so soon after the resignation of Mrs. Mabel Walker Willebrandt as assistant attorney general, gave credence to reports long current in official circles that the reorganization of the prohibition unit awaited Mrs. Willebrandt's withdrawal as chief of the justice department's prohibition machinery.

Today's message to congress substantiates United Press reports in March to the effect that the president contemplated strengthening the patrols along the Canadian border and also to the effect that no legislation for the transfer of the prohibition

FIVE COAL LOADERS CRUSHED TO DEATH IN SLATE FALL

Bluefield, W. Va., June 6.—(U.P.)—Five coal loaders were crushed to death today in a slate fall at the Halcen mine near Wise, Va. MT. VESUVIUS' NEW ERUPTION NOW ABATING

LONG STREAM OF LAVA LOSING
MUCH OF ITS HEAT AND IS
TURNING BLACK

ONLY ONE DEATH IS REPORTED
FROM THE THREE-DAY
OUTBREAK

Naples, June 6.—(U.P.)—Mt. Vesuvius' new eruption and the lava flow which has continued for three days was abated considerably today.

The long stream of lava, extending from the eruptive center in the southeastern crater of the volcano almost to the town of Terlizigno, had lost much of its heat and was turning black, which indicated its power was lessening.

Only one death was reported from the three-day outbreak. An aged farmer was found dead a few feet below the slowly advancing wall of lava which was passing over his land. It was believed he died of a broken heart at seeing his lands submerged.

The farmer had fled from his home with other refugees, but slipped away from them and returned to sit near his farm and watch it as it was engulfed.

The front of the lava flow was approximately 49 feet high and more than a half mile wide today. Early last night there was an increase of the flow when it attained a speed of about 980 feet an hour. Additional lava was ejected from the eruptive opening, giving fresh impetus to the branch flowing towards the hamlet of Pagani Di Sotton, a section of Terlizigno, where four houses were destroyed.

The flow lessened perceptibly within three hours, however, and encouraged the population of the affected sections to believe the danger was near an end.

GRAF ZEPPELIN TO FLY TO U. S. FRIDAY, JUNE 21

Alleged Fugitive From Justice Gives Self Up

bition unit would be attempted in the special session of congress.

President Hoover is understood to have paved the way for today's message through a series of conferences with both republican and democratic leaders in congress.

The project for consolidating the prohibition machinery has been a major problem with the president since he took office three months ago.

He assented to the transfer proposal, which has been urged by dry forces for several years, during the presidential campaign. In accordance with his general policy of dealing with congress, however, he will not undertake to dictate the program which should be incorporated in the necessary legislation.

As with the farm bill and the tariff bill, the president will merely recommend to congress that some action be taken. He will then leave it to congress to write the bill.

In Spite of Disagreements Between Pope and Fascists, Lateran Treaty Signed Soon

RATIFIED PACTS MAY BE EXCHANGED BY TOMORROW

SPECULATION INDULGED ON THE
POPE'S OPEN LETTER TO
CARDINAL GASPARRI

CHURCH AND FASCIST GOVERN-
MENT ENTERTAIN DIVERGING
VIEWS ON TREATY

By THOMAS B. MORGAN
(United Press Staff Correspondent)

Rome, June 6.—Notwithstanding the open disagreement between Pope Pius XI and the Fascist government on the rights of the church and the state in supervising the education of Italy's younger generations, it was learned authoritatively today that the formal exchange of ratifications of the Lateran treaty would not be delayed.

It was reliably reported that Premier Mussolini and Cardinal Gasparri, papal secretary of state, in spite of divergence of views with regard to the interpretation of the treaty and concordat, would exchange the ratified pacts in the cardinal's private office in Vatican City tomorrow.

As to the political consequences of the pope's open letter to Cardinal Gasparri, there was considerable speculation, both in Rome and in the newly-created vatican state. The letter of the pontiff showed that the church and the fascist government, though agreed as to the terms contained in the treaty and concordat, were at considerable divergence as to their application and interpretation.

The pope was as direct in stating the aims of the Catholic church with regard to the rights of the church in supervising the education of Italy's rising generations in the future as well as the present, as the premier was in his speeches which claimed for the state the sole right of dealing with the problem of educating the young.

Pope Pius' letter characterized Mussolini's utterances as a painful set-back in the settlement of the age-old Goman problem. He said he was disappointed with the statements made by the Italian premier and branded them as "even worse than heretical," referring to Mussolini's utterances about the essence of Christianity and, especially Catholics.

Referring to the premier's hint that the fate of the Lateran treaty might be different from that of the concordat, the pope made it quite plain that the two were inseparable and that they must stand or fall together.

The crew of the vessel was transferred at 1 a. m. today to the U. S. S. Ohio and the U. S. S. Helena. Two mine-sweepers were standing by the Luzon attempting to plug two holes which were punched in the forward of the vessel when it struck the rocks.

Rear Admiral Mark L. Bristol, who was aboard the U. S. S. Pittsburg, sent advices here today minimizing the damage to the Luzon and saying that only a skeleton crew was aboard the vessel.

RUSHED TO THE FLAME-
SWEEPED AREAS

AIRPLANES SEEK TO ALLEVIATE
SUFFERING OF STRICKEN
ONES

Winnipeg, Man., June 6.—(U.P.)—Food and clothing were rushed by airplane today to hundreds made homeless in northern Manitoba by widespread forest fires.

Government forestry service airplanes, augmented by a fleet of commercial ships, flew northward with supplies and fire rangers in an effort to alleviate suffering among the settlers and quell blazes that have wiped out Cranberry Portage and Mile 83, both small settlements.

So far no casualties have been reported but 1,000 residents of Cranberry Portage were forced to take to rafts in Lake Athapapuskow to escape the swift flames.

A rainless spring had made the forest and brush ready fuel.

Gold seekers have turned for the time being from their hunt for wealth to aid rangers and settlers in backfiring large areas to confine the fires so they will burn out.

ARRESTED RADIO OPERATOR MAKES HIS GETAWAY

WILLIAM L. TALLMAN, CHARGED
WITH "CLOTHES CLOSET"
MURDER

VICTIM WAS PRETTY WIFE OF
FRANK D. PATTY, PORTLAND,
ORE., FINANCIER

San Francisco, June 6.—(U.P.)—William L. Tallman, charged with the "clothes closet" murder of Mrs. Virginia Patty in Los Angeles, was missing from the liner Admiral Benson when it docked here shortly after midnight, Capt. M. Suohs told the United Press.

Tallman, a handsome radio operator, had been arrested on board the ship after the body of Mrs. Patty, bundled up and dangling from a hook, was found in her Los Angeles apartment.

Tallman apparently jumped overboard to avoid questioning concerning the slaying of the pretty wife of Frank D. Patty, Portland, Ore., financier, Captain Suohs said.

The climax to the sensational Los Angeles murder mystery came when the Admiral Benson docked. Los Angeles and local police immediately boarded the ship and learned that the lock on Tallman's stateroom had been broken and their quarry gone.

All passengers were detained half an hour while a thorough search of the ship was made. Police were of the opinion that Tallman might still be aboard the ship as he was a radio operator on it six months and it was there he met Mrs. Patty. Police learned from members of the crew that Tallman was an excellent swimmer and the chances of his making shore were good.

San Francisco police immediately broadcast a warning along the coast to be on the lookout for the radio operator.

MRS. J. J. CUMMINS RENAMED TREASURER OF 6TH DISTRICT CLUBS

Wadena, June 6.—(U.P.)—Mrs. P. M. Hall of Walker, today was re-elected president of the Sixth District Federation of Women's Clubs shortly before the conclusion of the 24th annual convention.

Mrs. L. S. Arnold, Bemidji, was re-elected vice-president; Mrs. L. H. Polson, Wadena, was chosen recording secretary; Mrs. Daniel Delury, Walker, re-elected corresponding secretary, and Mrs. J. J. Cummins of Brainerd was re-named treasurer.

Wadena, Minn., June 6.—(U.P.)—In a long and comprehensive message read before the 24th annual convention of the Sixth District Federation of Women's Clubs, Rep. Harold Knutson, St. Cloud, declared today that Minnesota would benefit as much from pending farm relief and tariff bills as any state in the Union.

The message from the congressman at Washington was read shortly before it was announced that Brainerd's Choral Club had won the music contest conducted by the federation on Wednesday night.

"The welfare of agriculture is the first concern of Minnesota," Knutson said in his message, "for it is the basic industry upon which we rely for much of our support."

"In my opinion Minnesota would benefit as much by the pending farm relief and tariff bills as any state in the Union."

Much of the morning session was taken up by reports of the various officers including that of treasurer, Mrs. J. J. Cummins, Brainerd.

The most important event left on the program was the selection of officers for 1930. The balloting had not begun at 2 P. M.

EMBARRASSING SITUATIONS FACE THE LEADERS

CENSUS AND REAPPORTIONMENT
BILLS WORRYING THE
HOUSE

SENATE HAS ITS TROUBLES WITH
DEBENTURE ELIMINA-
TION

By PAUL R. MALLON
(United Press Staff Correspondent)

Washington, June 6.—Congress may recess for the summer a week from Saturday if its leaders are able to extricate themselves from two embarrassing situations and carry out the plans to which they have agreed.

The embarrassing situations are divided between the two houses. House leaders are knee-deep in difficulties over two amendments which have been adopted to the innocent census and reapportionment bill, amendments providing no alien or colored citizen not allowed to vote can be counted when seats for the new house are allotted.

Senate leaders are discussing plans to put down the threatening insurgent rebellion against the farm conference agreement eliminating the debenture plan.

Optimists believe both situations will work themselves out without serious difficulties. They feel sure the original plan of adjourning until August or September to handle the tariff bill will finally be carried through.

The house well knows the senate never will accept either of its new amendments to the census bill. The senate defeated the alien exclusion plan in two votes, the last one by the narrow margin of 47 to 46 when opponents of the amendments did not have all their votes present.

Knowing this the house leaders are worried only about how to get rid of the amendments without a prolonged fight and were expected to find the parliamentary means before night.

The problem of the senate leaders is less embarrassing but more complex. If advocates of the debenture plan decide to filibuster they can keep congress in session indefinitely.

The farm agreement which excludes the debenture will be finished by the house and senate conferees and reported to the house late today. The plan is to take it up tomorrow and pass it without any extended debate.

Then it will be sent to the senate for the fight. Minus the debenture, the bill is just what the administration wants, but to get it through the senate, the administration leaders must win over enough votes to overthrow the 47 to 44 majority by which the debenture amendment was adopted.

While these matters bother the harassed leaders, the senate continued with its discussion of the national origins provision of the immigration act. A vote is expected late today or tomorrow.

Washington, June 6.—The farm bill agreement with the debenture true provision eliminated was submitted to the senate body today by Chairman McNary of the senate conferees. McNary announced he expected to bring up the report for action after the house acts tomorrow.

ENFORCEMENT OF PROHIBITION IS CONSIDERED

RECOMMENDS THAT FEDERAL
BUREAUS BE ORGANIZED
TO CARRY ON WORK

ASKS JOINT COMMITTEE OF CON-
GRESS BE APPOINTED TO
STUDY PROBLEM

By RAYMOND CLAPPER

Washington, June 6. — Reorganiza-
tion of federal bureaus concerned
with prohibition enforcement was
recommended by President Hoover
in a special message to congress to-
day.

The president recommended that a
joint committee of congress be ap-
pointed at once to study this prob-
lem and make a report for considera-
tion at the regular session beginning
next December.

The president's program as out-
lined in his message today contem-
plates the "concentration of respon-
sibility" in prohibition administra-
tion. It also involves the consolida-
tion of the various agencies as well
as "the necessity for the unification
and strengthening of our border pa-
trols."

The president sent his message to
the special session of congress "in
order to secure the utmost expedi-
tion" in the accomplishment of the
new program.

Speaker Longworth had the presi-
dent's message read to the house by
a clerk. He then ordered it referred
to the rules committee for considera-
tion.

The president's message was as
follows:

"To the Congress of the United
States:

"In order to secure the utmost ex-
pedition in the reorganization and
concentration of responsibility in ad-
ministration of the federal bureaus
connected with prohibition enforce-
ment, so greatly needed to improve
their effectiveness, I recommend that
the congress appoint a joint select
committee to make an immediate
study of these matters and to formu-
late recommendations for considera-
tion at the next regular session.

"I shall be glad to appoint a com-
mittee from the departments to co-
operate with such a committee of
the congress. The national commis-
sion on law observance and enforce-
ment will also co-operate through
their studies of the departmental or-
ganization.

"The subject involves the transfer
of parts of various bureaus and
agencies from certain departments
to others and it includes as well the
necessity for the unification and
strengthening of our border patrols,
both in connection with prohibition
and illegal entry of aliens. As the
question embraces numerous laws
and regulations in several bureaus,
it will require extensive considera-
tion which, if given jointly by such
committees of the congress and the
departments prior to the regular
session, will save many months of
delay."

The president's message to con-
gress was despatched while the new
law enforcement commission was
holding its first real working ses-
sion.

About the same time Sen. Hawes,
democrat, Mo., announced he would
introduce a resolution in the senate
calling upon the commission to hold
its meetings openly.

Although the president made no
specific suggestion as to how the
reorganization should be accomplished,
it was generally understood in offi-
cial circles that his message consti-
tutes the first step in the adminis-
tration program for transferring all
enforcement activities from the treas-
ury to the department of justice.

At the same time, President Hoo-
ver indicated he would appoint a
joint committee from the various
executive departments interested to
co-operate with the congressional
committee and the newly created law
enforcement commission in prepar-
ing legislation for the next session
of congress, which assemblies in De-
cember.

Transmission of this recommenda-
tion to congress so soon after the
resignation of Mrs. Mabel Walker
Willebrandt as assistant attorney
general, gave credence to reports
long current in official circles that
the reorganization of the prohibition
unit awaited Mrs. Willebrandt's
withdrawal as chief of the justice
department's prohibition machinery.

Today's message to congress sub-
stantiates United Press reports in
March to the effect that the presi-
dent contemplated strengthening the
patrols along the Canadian border
and also to the effect that no legis-
lation for the transfer of the probi-

Naples, June 6.—(U.P.)—Mt. Vesu-

The long stream of lava, extend-
ing from the eruptive center in the
southeastern crater of the volcano
almost to the town of Terzigno, had
lost much of its heat and was turn-

was lessening.

Only one death was reported from

President Hoover is understood to
have paved the way for today's mes-

In Spite of Disagreements Between Pope and Fascists, Lateran Treaty Signed Soon

RATIFIED PACTS MAY BE EXCHANGED BY TOMORROW

CHURCH AND FASCIST GOVERN-
MENT ENTERTAIN DIVERGING
VIEWS ON TREATY

By THOMAS B. MORGAN
(United Press Staff Correspondent)

Rome, June 6.—Notwithstanding
the open disagreement between Pope
Pius XI and the Fascist government
on the rights of the church and the
state in supervising the education
of Italy's younger generations, it
was learned authoritatively today
that the formal exchange of ratifica-
tions of the Lateran treaty would
not be delayed.

It was reliably reported that Pre-
mier Mussolini and Cardinal Gas-
parri, papal secretary of state, in
spite of divergence of views with re-
gard to the interpretation of the
treaty and concordat, would exchange
the ratified pacts in the cardinal's
private office in Vatican City to-
morrow.

As to the political consequences
of the pope's open letter to Cardinal
Gasparri, there was considerable
speculation, both in Rome and in
the newly-created vatican state. The
letter of the pontiff showed that the
church and the fascist government,
though agreed as to the terms con-
tained in the treaty and concordat,
were at considerable divergence as
to their application and interpreta-
tion.

The pope was as direct in stating
the aims of the Catholic church with
regard to the rights of the church in
supervising the education of Italy's
rising generations in the future as
well as the present, as the premier
was on May 13 and again on May 25
in his speeches which claimed for
the state the sole right of dealing
with the problem of educating the
young.

Pope Pius' letter characterized
Mussolini's utterances as a painful
set-back in the settlement of the age-
old Goman problem. He said he was
disappointed with the statements
made by the Italian premier and
branded them as "even worse than
heretical," referring to Mussolini's
utterances about the essence of
Christianity and, especially, Catho-
licism.

Referring to the premier's hint that
the fate of the Lateran treaty might
be different from that of the con-
cordat, the pope made it quite plain
that the two were inseparable and
that they must stand or fall together.

WIDESPREAD FOREST FIRES IN MANITOBA

FOOD AND CLOTHING ARE BEING
RUSHED TO THE FLAME-
SWEEPED AREAS

AIRPLANES SEEK TO ALLEVIATE
SUFFERING OF STRICKEN
ONES

Winnipeg, Man., June 6.—(U.P.)—
Food and clothing were rushed by
airplane today to hundreds made
homeless in northern Manitoba by
widespread forest fires.

Government forestry service air-
planes, augmented by a fleet of com-
mercial ships, flew northward with
supplies and fire rangers in an effort
to alleviate suffering among the
settlers and quell blazes that have
wiped out Cranberry Portage and
Mile 83, both small settlements.

So far no casualties have been re-
ported but 1,000 residents of Cran-
berry Portage were forced to take to
rafts in Lake Athapapuskow to es-
cape the swift flames.

A rainless spring had made the
forest and brush ready fuel.

Gold seekers have turned for the
time being from their hunt for
wealth to aid rangers and settlers
in backfiring large areas to confine
the fires so they will burn out.

Novel Basis for Domestic Suit

Violation of a unique agreement whereby Mrs. Bainbridge
Colby, right, estranged wife of the Secretary of State under
President Wilson, promised never to ridicule her husband, is
the cause for a suit by Mr. Colby, left, to break the agreement.
By its terms Mrs. Colby was to get \$1,500 a month as long as
she did not poke fun at her internationally-known hubby, who
says that her novel, "The Green Forest," violates the agree-
ment. His application for divorce following the publication of
the book, was denied in a Paris court.

ARRESTED RADIO OPERATOR MAKES HIS GETAWAY

WILLIAM L. TALLMAN, CHARGED
WITH "CLOTHES CLOSET"
MURDER

VICTIM WAS PRETTY WIFE OF
FRANK D. PATTY, PORTLAND,
ORE., FINANCIER

San Francisco, June 6.—(U.P.)—
William L. Tallman, charged with
the "clothes closet" murder of Mrs.
Virginia Patty in Los Angeles, was
missing from the liner Admiral Ben-
son when it docked here shortly af-
ter midnight, Capt. M. Suchst told
the United Press.

Tallman, a handsome radio oper-
ator, had been arrested on board the
ship after the body of Mrs. Patty,
bundled up and dangling from a
hook, was found in her Los Angeles
apartment.

Tallman apparently jumped over-
board to avoid questioning concern-
ing the slaying of the pretty wife of
Frank D. Patty, Portland, Ore., fi-
nancier, Captain Suchst said.

The climax to the sensational Los
Angeles murder mystery came when
the Admiral Benson docked. Los
Angeles and local police immedi-
ately boarded the ship and learned that
the lock on Tallman's stateroom had
been broken and their quarry gone.

All passengers were detained half
an hour while a thorough search
of the ship was made. Police were
of the opinion that Tallman might
still be aboard the ship as he was
a radio operator on it six months
and it was there he met Mrs. Patty.

Police learned from members of
the crew that Tallman was an excel-
lent swimmer and the chances of his
making shore were good.

San Francisco police immediately
broadcast a warning along the coast
to be on the lookout for the radio
operator.

MRS. J. J. CUMMINS RENAMED TREASURER OF 6TH DISTRICT CLUBS

Wadena, June 6.—(U.P.)—Mrs. P.
M. Hall of Walker, today was re-
elected president of the Sixth Dis-
trict Federation of Women's Clubs
shortly before the conclusion of the
24th annual convention.

Mrs. L. S. Arnold, Bemidji, was
re-elected vice-president; Mrs. L. H.
Polson, Wadena, was chosen record-
ing secretary; Mrs. Daniel Delury,
Walker, re-elected corresponding sec-
retary, and Mrs. J. J. Cummins of
Brainerd was re-named treasurer.

Wadena, Minn., June 6.—(U.P.)—
In a long and comprehensive mes-
sage read before the 24th annual con-
vention of the Sixth District Federa-
tion of Women's Clubs, Rep. Harold
Knutson, St. Cloud, declared today
that Minnesota would benefit as
much from pending farm relief and
tariff bills as any state in the Union.

The message from the congress-
man at Washington was read short-
ly before it was announced that
Brainerd's Choral Club had won the
music contest conducted by the
federation on Wednesday night.

"The welfare of agriculture is the
first concern of Minnesota," Knut-
son said in his message, "for it is
the basic industry upon which we
rely for much of our support."

"In my opinion Minnesota would
benefit as much by the pending farm
relief and tariff bills as any state in
the Union."

Much of the morning session was
taken up by reports of the various
officers including that of treasurer,
Mrs. J. J. Cummins, Brainerd.

The most important event left on
the program was the selection of of-
ficers for 1930. The balloting had
not begun at 2 P. M.

EMBARRASSING SITUATIONS FACE THE LEADERS

CENSUS AND REAPPORTIONMENT
BILLS WORRYING THE
HOUSE

SENATE HAS ITS TROUBLES WITH
DEBENTURE ELIMINA-
TION

By PAUL R. MALLON
(United Press Staff Correspondent)

Washington, June 6. — Congress
may recess for the summer a week
from Saturday if its leaders are able
to extricate themselves from two em-
barrassing situations and carry out
the plans to which they have agreed.

The embarrassing situations are
divided between the two houses.
House leaders are knee-deep in dif-
ficulties over two amendments which
have been adopted to the innocent
census and reapportionment bill,
amendments providing no alien or
colored citizen not allowed to vote
can be counted when seats for the
new house are allotted.

Senate leaders are discussing plans
to put down the threatening insur-
gent rebellion against the farm con-
ference agreement eliminating the
debenture plan.

Optimists believe both situations
will work themselves out without
serious difficulties. They feel sure
the original plan of adjourning un-
til August or September to handle
the tariff bill will finally be carried
through.

The house well knows the senate
never will accept either of its new
amendments to the census bill. The
senate defeated the alien exclusion
plan in two votes, the last one by
the narrow margin of 47 to 46 when
opponents of the amendments "did
not have all their votes present."

Knowing this the house leaders
are worried only about how to get
rid of the amendments without a
prolonged fight and were expected to
find the parliamentary means before
night.

The problem of the senate leaders
is less embarrassing but more com-
plex. It advocates of the debenture
plan decide to filibuster they can
keep congress in session indefinitely.

The farm agreement which ex-
cludes the debenture will be finished
by the house and senate conferees
and reported to the house late today.
The plan is to take it up tomorrow
and pass it without any extended
debate.

Then it will be sent to the senate
for the fight. Minus the debenture,
the bill is just what the adminis-
tration wants, but to get it through
the senate, the administration lead-
ers must win over enough votes to
overthrow the 47 to 44 majority by
which the debenture amendment
was adopted.

While these matters bother the
harassed leaders, the senate con-
tinued with its discussion of the na-
tional origins provision of the im-
migration act. A vote is expected
late today or tomorrow.

Washington, June 6.—The farm
bill agreement with the debenture
true provision eliminated was sub-
mitted to the senate body today by
Chairman McNary of the senate con-
ference. McNary announced he ex-
pected to bring up the report for
action after the house acts to-
morrow.

GENERAL ELECTRIC Refrigerator

There isn't a bit of exposed machinery in the General Electric Refrigerator. It's all sealed inside one airtight steel casing—mounted on top of the cabinet. There isn't any mechanism under the box, inside it—or down in the basement.

To such remarkable simplicity have the engineers of General Electric brought the domestic refrigerator. For fifteen years they worked. They built thousands of refrigerators. Tested them in the laboratory and in homes. Changed them, improved them, perfected them...until this final example of simplicity and efficiency was evolved. It was primarily an electrical problem. And so it was solved, as one would expect, by the world's outstanding group of electrical engineers and scientists.

You are cordially invited to come in today and study the many models. Notice how quietly they operate. How roomy and strong the cabinets are. Remember, too, that they use very little current to make all the ice you need and keep the temperature always below the 50° danger point.

Our paint department is sure

busy these days. This is the time of the year when folks like to paint and handlingsuch a fine line of paints as we do naturally folks think of us first when they think of paint.

Now is the time to build your own home. It is no longer necessary to have all the money to build it with. We will now finance your home on the easy payment plan. Make your rent receipts payments on your new home. Come in and see us and we will show you how easy it is to live in your own home while you are paying for it.

That swishing noise you heard the other day was old Ben Franklin, the exponent of thrift, turning over in his grave.

How about that roof on your home? It is going to leak and spoil that new paint job on your walls when the first good shower comes along? Better come in and look over our stock of all the latest designs on Mule-Hide shingles. Then all your worries will be over.

Question before the house. Can you tell us? What is the correct mileage one should get out of a boarding house roller towel?

We see by the papers that every seventh time a dollar bill changes hands it hits a filling station.

GENERAL ELECTRIC Refrigerator

There isn't a bit of exposed machinery in the General Electric Refrigerator. It's all sealed inside one airtight steel casing—mounted on top of the cabinet. There isn't any mechanism under the box, inside it—or down in the basement.

To such remarkable simplicity have the engineers of General Electric brought the domestic refrigerator. For fifteen years they worked. They built thousands of refrigerators. Tested them in the laboratory and in homes. Changed them, improved them, perfected them...until this final example of simplicity and efficiency was evolved. It was primarily an electrical problem. And so it was solved, as one would expect, by the world's outstanding group of electrical engineers and scientists.

You are cordially invited to come in today and study the many models. Notice how quietly they operate. How roomy and strong the cabinets are. Remember, too, that they use very little current to make all the ice you need and keep the temperature always below the 50° danger point.

Published for the information and entertainment of the home loving folks of Brainerd and vicinity by the Standard Lumber Co.

Sambo, out in a boat with his best girl, Mandy, had been teasing for a kiss, but she refused again and again. Finally he became desperate. "Mandy," he threatened, "effen you don't lemme kiss yo' I'se gwine to upset this here boat." Getting home, Mandy told her mother about it.

"And did you let the gemman kiss you?" her mother asked.

"Well, did you all see anything in de paper dis mawnin' 'bout two niggers drownin'?"

That swishing noise you heard the other day was old Ben Franklin, the exponent of thrift, turning his paint department is sure over in his grave

at the news that a western prohibition agent saved \$14,000 last year out of a salary of \$2,000.

How about that roof on your home? It is going to leak and spoil that new paint job on your walls when the first good shower comes along? Better come in and look over our stock of all the latest designs on Mule-Hide shingles. Then all your worries will be over.

Question before the house. Can you tell us? What is the correct mileage one should get out of a boarding house roller towel?

This year the Brainerd Choral club will again enter the state which according to present plans will be held in October.

The honor of winning the contests is shared between the 14 members, Miss Effie Drexler, director, Mrs. Louis Knudsen, accompanist and the following singers: sopranos, Mesdames J. H. Krekelberg, A. W. Doug's "Iron Mask" Supreme Achievement

Do you want to see a truly magnificent picture with a powerful story, interesting people and superb settings?

Do you want to forget the humdrum "now" and spend an hour or two in the romantic "then" of the seventeenth century France, when kings and cardinals moved through stately palaces, and an iron masked captive paced the stone floor of an island fortress?

Do you want to see D'Artagnan, brought to vivid life by Douglas Fairbanks, riding with his three loyal musketeers, Athos, Porthos, and Aramis, upon their quest for romance and adventure?

Then you must see "The Iron Mask," the latest Fairbanks picture, which opened last night at the Lyceum theatre.

TREE SURGEONS AT WORK

THE Davey tree experts, real surgeons and doctors in their work, have arrived in Brainerd and are now operating under contract with the Northwestern Bell Telephone Company to cut, remove or trim trees interfering with the telephone cables and wires.

It has been found that trimming trees properly is an art which requires considerable experience and is distinguished by proper workmanship. When the tree surgeons arrive at premises which require their work, they confer with the owner so as to do the trimming to his satisfaction. Trees, oftentimes, must be trimmed symmetrically to harmonize with other trees and surroundings.

The Davey tree experts have 900 men operating in various states. The tree trimming this year along telephone cable and line paths is the first time that it has been done under expert guidance and the cooperation of property owners is sought so as to satisfactorily solve the problem of the telephone company which desires to give the best possible telephone service unmarred by line losses caused by "grounds", and the owner of premises who seeks to have his trees retained in the best possible shape.

By working together, telephone service and beauty of trees can be materially improved.

Daphne by HAZEL LIVINGSTON

CHAPTER XXXIX.

IT was a hard day, the hardest Daphne had ever experienced. She took shorthand at speed that almost paralyzed her fingers. Typed telegrams with little beads of sweat on her upper lip, and Mr. Greely bawling from his office door, "Isn't that wire ready yet? Send it in when it's ready!" In the midst of it, Miss Yardley whose desk was in the outer office

Daphne had completely forgotten the visitor. The woman came once again in the afternoon, but Barney the office boy, told her severely, that Mr. Greely's secretary could not be disturbed. She left a note with him, but in the excitement no one remembered it until the next day. "He's worse than I've ever seen him," Miss Yardley told Daphne. It's probably just one of his tantrums. This trouble with Mc-

a new one. I'll bet McKevitt is left out of this one."

Daphne was glad when she could get away from the talkative Miss Yardley. All these allusions to McKevitt and trouble frightened her. She had come to love the old man, too, and it hurt that he should be laughed at, even in so friendly a way.

Five o'clock came, and six, and she was still at her desk, though everyone else had gone but Greely.

Just as she was covering her typewriter Allan Winters came in, unannounced. Daphne mumbled some sort of greeting and he returned it as unintelligibly. They had been shy with each other, almost hostile, since the day at the old man's cottage. She hardly glanced at him as he slouched through the room, hands in his pockets, and disappeared in Greely's private office. "For such a shy looking young man he has his nerve," she thought, a little

truly. "Nobody else would buzz in on Mr. Greely like that. I hope he throws him out, that's what I hope!"

He came dashing back a moment later. "Miss Haines, will you come? I think he's had a stroke—he's all slumped down in his chair—"

"Oh!" Daphne cried, and with one leap she was inside the office, rubbing his hands, trying to make him comfortable, issuing impossible instructions to Allan, while he telephoned for a doctor and a taxi.

Just a few minutes ago he was the big boss on the warpath, shouting, swearing and banging on the table, and now he was so pitifully old and helpless. Daphne held his listless head against her shoulder, stroking his thick gray hair, feeling into his face, stern and hawk-like still, for some sign of consciousness.

"Oh why doesn't the doctor come? Isn't there something that we could be doing, Allan? Allan—ring him again. Call another doctor—"

The doctor came at last, a pompous, slow moving little man who refused to be hurried.

"A heart attack," he said comfortably, as if heart attacks and old Mr. Greely collapsed in his chair were nothing in the least to worry about.

When they were ready to take the old man home they told Daphne she need not wait, but somehow or other she was in the taxi helping to support him when they started. He was conscious now, and gave her a prodigious wink when the cab stopped in front of the big, old-fashioned house. "Terrible inconvenience—"

"Sister Anne!" he mumbled twinkling under the bushy brows. And with another parting grin for Allan he let them lead him upstairs.

"A heart attack, doctor?" asked Sister Anne. "Dear, dear, now he'll be laid up again, and such a patient, and the Diocesan Convention right on me, and my week to entertain the Guild, dear, dear—if he'd only take care of himself—"

It was a hard day—the hardest Daphne had ever experienced.

came in to announce a lady to see Daphne.

"A lady?" Daphne hesitated. "Why I don't know who it could be, and I can't come now. If I leave this Mr. Greely will be furious. Will you tell her to leave the message?"

"All right," Miss Yardley agreed. "She wouldn't give her name though. She's middle-aged and blowsy looking."

Miss Yardley decided, though why Viola should call on her in the office.

"Those letters ready yet?" Mr. Greely bellowed, and Miss Yardley fled.

Before the day was over, McKevitt maybe. But you ought to

see him when he gets rheumatic. He's awfully funny. He thinks he's going to die you know, and he works hard enough to kill any other man, getting his affairs in order and he goes to church—the Greelys are awfully High Church you know—of course Greely isn't except when he's sick—but his sister is. A girl I know goes to St. John's, where his sister goes, and she says it's a scream to see him come clumping up the aisle when he has one of these fits on, right up to a front pew, and he does it for about three Sundays running, and then when he's well again, he never goes back until the next attack. He always tears up his will, too, and makes

Watch Tongue For Signs of Illness

Your tongue is nothing more than the upper end of your stomach and intestines. It is the first thing your doctor looks at. It tells at a glance the condition of your digestive system—and physicians say that 90 per cent of all sicknesses start with stomach and bowel trouble.

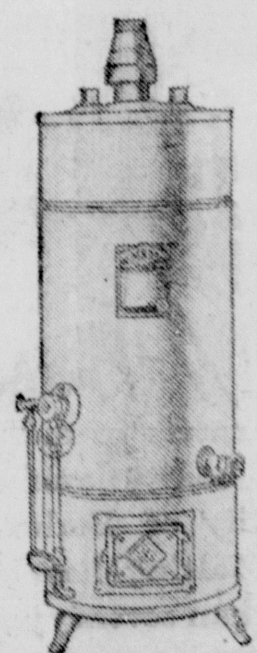

A white or yellowish coating on your tongue is a danger signal of those digestive disorders. It tells you why the least exertion tires you out; why you have pains in the bowels, gas, sour stomach, dizzy spells.

And it's a sign you need Tanlac. This good old reliable medicine has helped thousands who were physical wrecks. See how the first bottle helps you.

Tanlac contains no mineral drugs; it is made of barks, herbs and roots—nature's own medicines for the sick. Get a bottle from your druggist today. Your money back if it doesn't help you.

BRAINERD COUNTRY CLUB GRASS GREENS ARE THRIVING

**FIVE MAY BE
READY FOR PLAY
BY JULY 15**

**GROUNDS COMMITTEE IS COM-
POSED OF M. R. SMITH, C. A.
RYAN, ROBERT DUERR**

**AT PRESENT NO. 6 IS ONE OF
BEST GRASS GREENS ON
NEW COURSE**

Grass greens at the Brainerd Country club golf links are thriving due to liberal sprinkling given them by the water system installed and which is functioning well.

The grounds committee is one of the most important in the golf club. Its members are Marvin R. Smith, chairman, C. A. Ryan and Robert Duerr.

"We hope to have five of our grass greens in shape for play by July 15," said Mr. Smith. No. 6, at present, is one of the best grass greens. New tees are being built too. No. 7 being a particularly good example.

Benches, boxes, flagpoles, etc., on the links have been painted orange and black. The water system, through which courses the water which is the life blood of any grass greens system, is functioning well. A six horsepower gasoline engine has been installed, furnishing power to operate a 100-pound pressure pump. Water is also supplied the club house. Six wells furnish the water supply. Gates permit shutting off sections, so that power can be concentrated on the north or south half of the grounds.

The mower has been enlarged to make a 12-foot cut. L. J. Larson is the grounds keeper and is a very efficient man. A visit to the Country Club will reveal the comprehensive program adopted by the grounds committee, and the equipment and supplies on hand give every evidence that things will be carried out successfully.

'WHO GOT THE MONEY?' IS QUESTION NOW RAISED

WHERE WILL ATHLETIC BODY STRIKE NEXT?

**HULLABALOO RAISED 10 DAYS
AGO WHEN IOWA SUSPENDED
IN ATHLETICS**

By BERT DEMBY
(United Press Staff Correspondent)
Chicago, June 6. — Next to the question of "who got the money?"

the predominant subject in discussing of the Big Ten athletic situation today was "where, if any place, will the athletic committee strike next?"

The hullabaloo which arose ten days ago when the faculty athletic committee suspended Iowa on charges of subsidizing athletics seems to have moved eastward and today it appeared, if reports are correct, that evidence tending to implicate Purdue will be placed before the committee.

Just what the evidence is was not definitely known but Coach Everett Case of the Frankfort, Ind., high school was to appear before Major John L. Griffith, Big Ten athletic

commissioner, to tell what he "knows about Purdue."

It appears that Case was incensed because his name figured in the Iowa charges, to the extent that he was alleged to have received credits from Iowa in return for influencing athletics to attend the Hawkeye institution.

Case denied this and countered with the statement that the Iowa charge was preferred against him because he had refused to send his high school stars to Purdue.

Edward Lauer, the new athletic director at Iowa, today was reported to be endeavoring to find out who,

if any, athletes at his school received improper financial aid. There were reports that at least twelve were implicated.

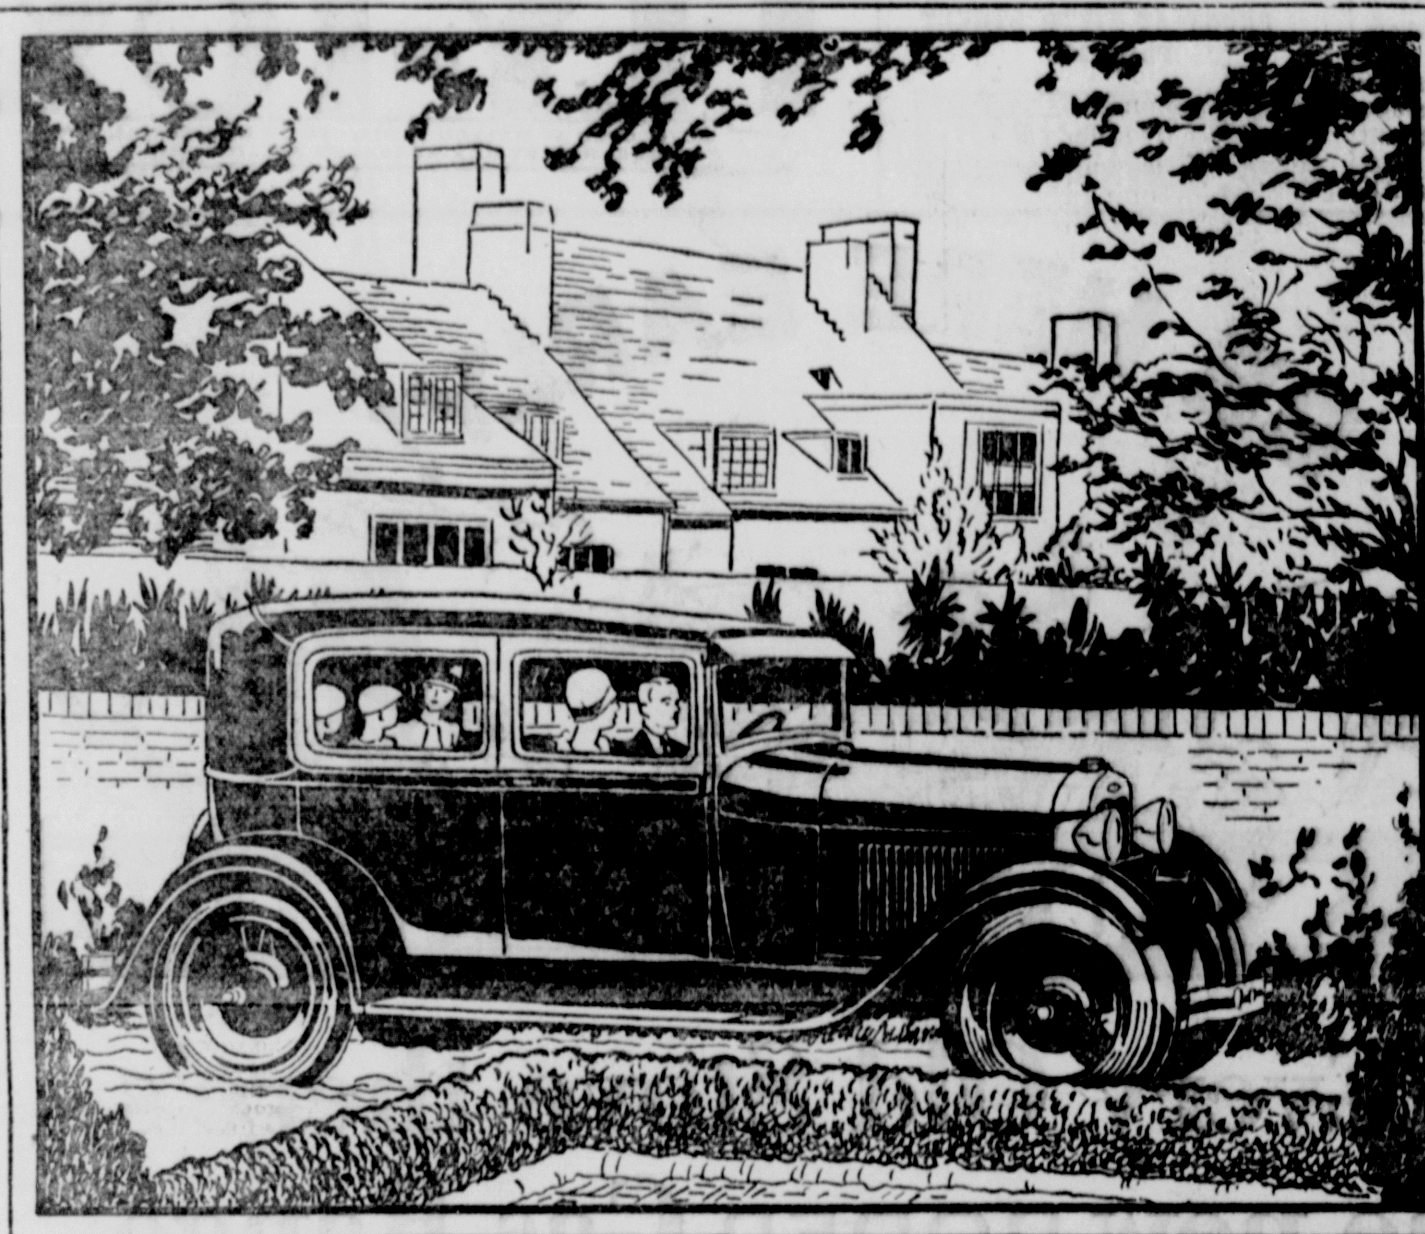

If the attitude of "You told on me, now I'll tell on you" persists, Griffith may have a man's sized job on his hands. It is his job to investigate any athletic irregularity.

The major refuses to believe that the affair will reach a wide scope. "We're for clean athletics," he said, "and we'll investigate any charges but I don't anticipate widespread accusations."

JOIE RAY, GREAT TRACK MAN, NOW ROLLER SKATER

New York, June 6. — (U.P.) — Joie Ray, one of the greatest millers in track history, has turned roller skater and will start in the first international six-day roller race at Madison Square Garden next Monday, he announced here. Fifteen three-men teams are expected to start the freak marathon.

Look beneath the hood and study the mechanical beauty of the new Ford

WHEN you look beneath the hood and study the engine of the new Ford, you will begin to understand how carefully this car is made, and see something, too, of the enduring quality that has been built into every part.

Even if you know but little about the inside of an automobile and do not want to bother with mechanical details, you will sense the value of this care and this quality and realize that it means a great deal to you in the performance of the car.

As an engineer or technical man, you will marvel at the simplicity of design of the new Ford and spend long hours in studying the

many improvements embodied in its construction. In the homely, yet expressive words of the man in the shop when he pays his highest tribute to a fine piece of machinery: "It is a sweet mechanical job."

There is no better illustration of the care with which the new Ford is built than the close limits of measurement maintained in manufacturing.

In the new Ford, for instance, the diameter of the piston pin is held within three ten-thousandths (.0003) of an inch. An equally close limit is followed in the diameter

of the hole into which the piston pin is fitted.

The weight of the aluminum-alloy pistons is set at 17 7/8 ounces.

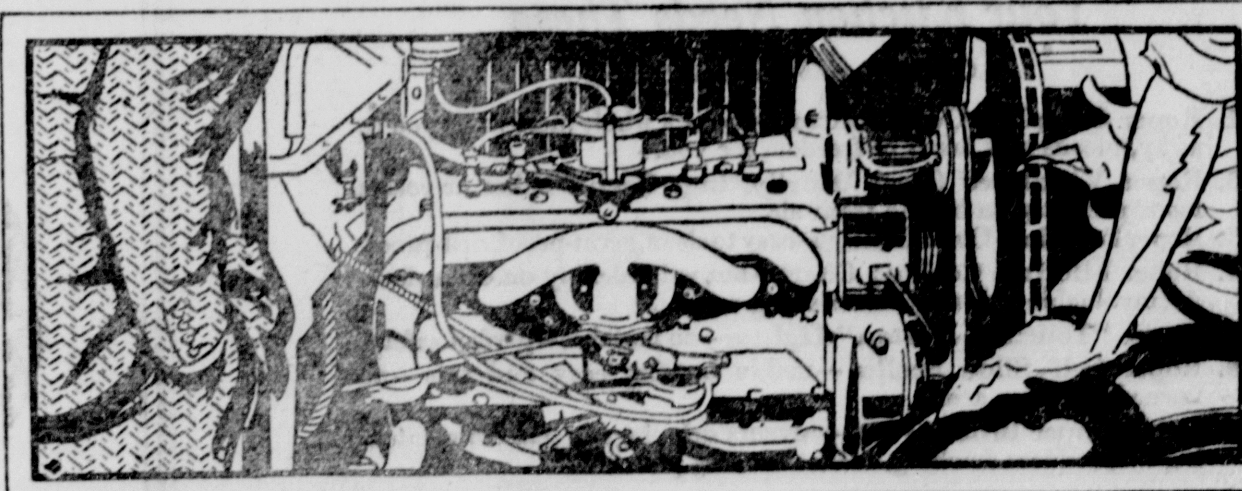

No piston is permitted to come under this weight and it must not exceed this weight by more than 2 grams.

In the piston assemblies, consisting of piston, connecting rod, pin and spring retainer, the four assemblies in each motor must match in weight within a limit of 3 1/2 grams. This means that every piston assembly must meet the weight of each of the other assemblies in the set within approximately 1/8 of an ounce.

The dynamic balance, which insures equal distribution of weight in the throws of the crankshaft, is held within 4 grams. Main and connecting rod bearings on the crankshaft are held within .0003 of an inch.

It is, of course, almost beyond imagination to conceive of measurements as close as these. They are achieved only through the use of the finest precision gages in the hands of expert workmen. These gages are set by Johansson master gage blocks which are accurate to one-millionth of an inch.

Make it a point, therefore, to see the new Ford and arrange for a demonstration. Only when you get behind the wheel can you fully appreciate the alert speed, acceleration, safety and comfort of this great new car.

The engine of the new Ford embodies many new mechanical features. Because of its carefully-planned simplicity, it gives unusual acceleration, smoothness, speed and power without sacrifice of economy and reliability.

BRAINERD COUNTRY CLUB GRASS GREENS ARE THRIVING

**FIVE MAY BE
READY FOR PLAY
BY JULY 15**

**GROUNDS COMMITTEE IS COM-
POSED OF M. R. SMITH, C. A.
RYAN, ROBERT DUERR**

**AT PRESENT NO. 6 IS ONE OF
BEST GRASS GREENS ON
NEW COURSE**

Grass greens at the Brainerd Country club golf links are thriving due to liberal sprinkling given them by the water system installed and which is functioning well.

The grounds committee is one of the most important in the golf club. Its members are Marvin R. Smith, chairman, C. A. Ryan and Robert Duerr.

"We hope to have five of our grass greens in shape for play by July 15," said Mr. Smith. No. 6, at present, is one of the best grass greens. New tees are being built too, No. 7 being a particularly good example.

Benches, boxes, flagpole, etc., on the links have been painted orange and black. The water system, through which courses the water which is the life blood of any grass greens system, is functioning well. A six horsepower gasoline engine has been installed, furnishing power to operate a 100-pound pressure pump. Water is also supplied the club house. Six wells furnish the water supply. Gates permit shutting off sections, so that power can be concentrated on the north or south half of the grounds.

The mower has been enlarged to make a 12-foot cut. L. J. Larson is the grounds keeper and is a very efficient man. A visit to the Country Club will reveal the comprehensive program adopted by the grounds committee, and the equipment and supplies on hand give every evidence that things will be carried out successfully.

'WHO GOT THE MONEY?' IS QUESTION NOW RAISED

WHERE WILL ATHLETIC BODY STRIKE NEXT?

**HULLABALOO RAISED 10 DAYS
AGO WHEN IOWA SUSPENDED
IN ATHLETICS**

By BERT DEMBY
(United Press Staff Correspondent)
Chicago, June 6. — Next to the question of "who got the money?"

the predominant subject in discussing of the Big Ten athletic situation today was "where, if any place, will the athletic committee strike next?"

The hullabaloo which arose ten days ago when the faculty athletic committee suspended Iowa on charges of subsidizing athletics seems to have moved eastward and today it appeared, if reports are correct, that evidence tending to implicate Purdue will be placed before the committee.

Just what the evidence is was not definitely known but Coach Everett Case of the Frankfort, Ind., high school was to appear before Major John L. Griffith, Big Ten athletic

commissioner, to tell what he "knows about Purdue."

It appears that Case was incensed because his name figured in the Iowa charges, to the extent that he was alleged to have received credits from Iowa in return for influencing athletics to attend the Hawkeye institution.

Case denied this and countered with the statement that the Iowa charge was preferred against him because he had refused to send his high school stars to Purdue.

Edward Lauer, the new athletic director at Iowa, today was reported to be endeavoring to find out who,

if any, athletes at his school received improper financial aid. There were reports that at least twelve were implicated.

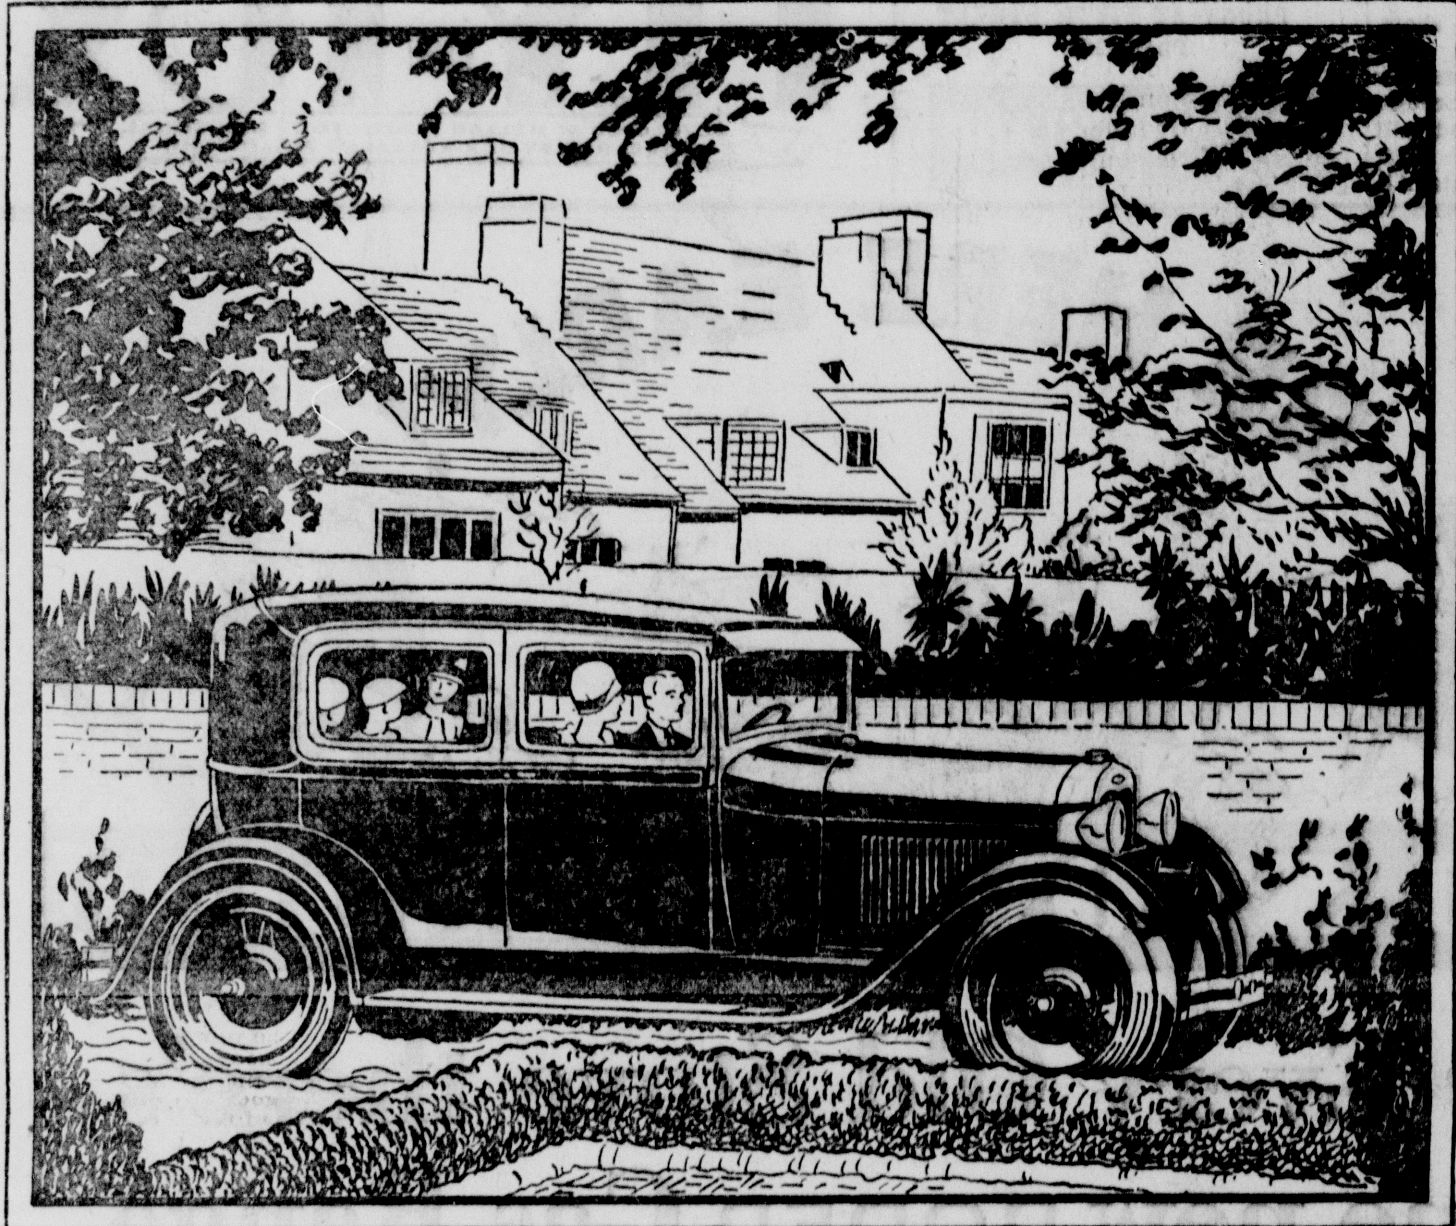

If the attitude of "You told on me, now I'll tell on you" persists, Griffith may have a man's sized job on his hands. It is his job to investigate any athletic irregularity.

The major refuses to believe that the affair will reach a wide scope. "We're for clean athletics," he said, "and we'll investigate any charges but I don't anticipate widespread accusations."

JOIE RAY, GREAT TRACK MAN, NOW ROLLER SKATER

New York, June 6. — (U.P.) — Joie Ray, one of the greatest millers in track history, has turned roller skater and will start in the first international six-day roller race at Madison Square Garden next Monday, he announced here. Fifteen three-men teams are expected to start the frenk' marathon.

Look beneath the hood and study the mechanical beauty of the new Ford

WHEN you look beneath the hood and study the engine of the new Ford, you will begin to understand how carefully this car is made, and see something, too, of the enduring quality that has been built into every part.

Even if you know but little about the inside of an automobile and do not want to bother with mechanical details, you will sense the value of this care and this quality and realize that it means a great deal to you in the performance of the car.

As an engineer or technical man, you will marvel at the simplicity of design of the new Ford and spend long hours in studying the

many improvements embodied in its construction. In the homely, yet expressive words of the man in the shop when he pays his highest tribute to a fine piece of machinery: "It is a sweet mechanical job."

There is no better illustration of the care with which the new Ford is built than the close limits of measurement maintained in manufacturing.

In the new Ford, for instance, the diameter of the piston pin is held within three ten-thousandths (.0003) of an inch. An equally close limit is followed in the diameter

of the hole into which the piston pin is fitted.

The weight of the aluminum-alloy pistons is set at 17 3/4 ounces.

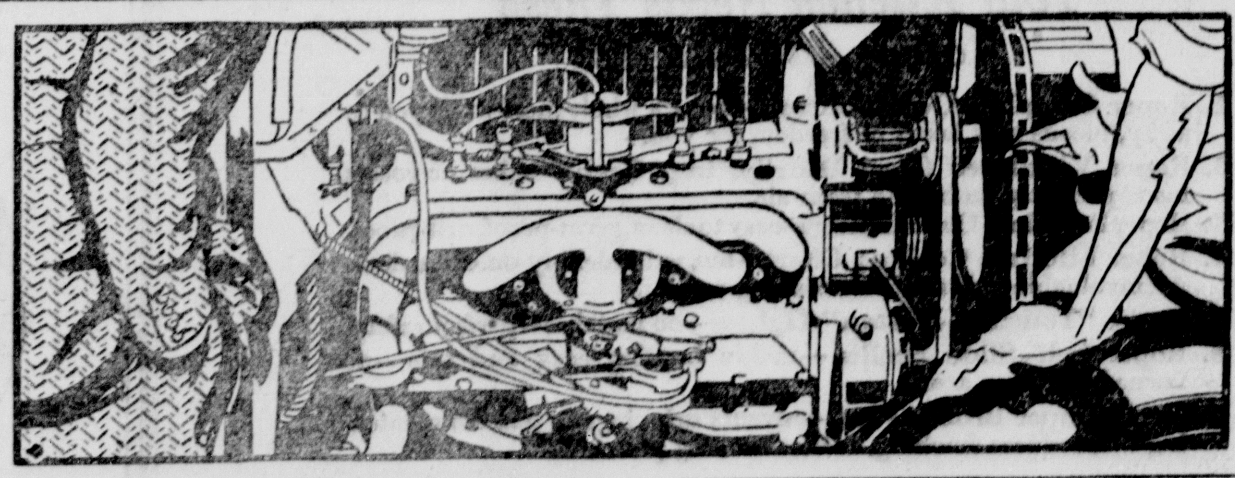

No piston is permitted to come under this weight and it must not exceed this weight by more than 2 grams.

In the piston assemblies, consisting of piston, connecting rod, pin and spring retainer, the four assemblies in each motor must match in weight within a limit of 3 1/2 grams. This means that every piston assembly must meet the weight of each of the other assemblies in the set within approximately 1/8 of an ounce.

MY SULLIVAN TO FIGHT BILLY LIGHT

WELTERWEIGHT CHAMPIONSHIP
OF NORTHWEST AT ISSUE
ON JUNE 14

My Sullivan vs. Billy Light, for the welterweight championship of the Northwest, at Lexington Baseball Park, St. Paul, June 14.

This is the fistic plum offered fight fans of the Northwest by Promoter Jerk Doran, and every indication is, that the largest crowd in the history of boxing will see the fight, which will be the second meeting of these two stellar 147-pounders.

Their first meeting was at the St. Paul Auditorium last winter and while the majority of newspaper critics at the ringside awarded Sullivan the decision, more than half of the attendance declared that Light was the winner and it was on the strength of this that the rematch came about.

The meeting of Light and Sullivan has caused more interest in boxing than anything since the famous feud between Mike Gibbons and Mike O'Dowd some ten years ago.

As an added feature to the show, Promoter Doran is promising fifty rounds of fighting. Preliminary battles from as many towns throughout the state as can be secured will be used on the supporting card, which will consist of nine bouts, Al-

ready fighters from Duluth, Rochester, Hudson, Stillwater and Sioux City, Ia., have been signed to appear on the program and regardless of where fans come for the fight they will be able to see boxers from their own section of the state.

The New York Giants pushed the St. Louis Cardinals out of first place in the National league by beating them, 6 to 4, at St. Louis. St. Louis' place atop the heap was taken by Pittsburgh, although the Pirates' game with Boston at Pittsburgh was rained out.

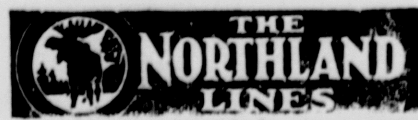

Cincinnati slugged three Philadelphia pitchers for a 21 to 4 victory at Cincinnati.

Sharks Swarm English Channel After Mackerel

Deal, England, June 6. (U.P.)—Swarms of sharks invaded the English channel today in search of mackerel, interfering with the plans of the cus-

tomary group of prospective channel swimmers.

A fishing boat landed 10 sharks at Deal this morning after an exciting encounter.

St. Paul, June 6. (U.P.)—H. J. Mushlstedt, St. Paul's modern Pied Piper of Hamelin—and fellow who shot 27 rats in 20 minutes with a .22 calibre rifle—was brought into court here today by Mrs. Anna Smith who charged that on one of the fellow's quiet days he shot and wounded her dog. Mrs. Smith asked \$50 damages. The case was continued.

RELIEF FROM CURSE OF CONSTIPATION

A Battle Creek physician says, "Constipation is responsible for more misery than any other cause."

But immediate relief has been found. A tablet called Rexall Orderlies has been discovered. This tablet attracts water from the system into the lazy, dry, evacuating bowel called the colon. The water loosens the dry food waste and causes a gentle, thorough, natural movement without forming a habit or ever increasing the dose.

Stop suffering from constipation. Chew a Rexall Orderly at night. Next day bright. Get 24 for 25c today at the nearest Rexall Drug Store, Johnson's Pharmacy and Economy Drug Company.
